

# Engineering advanced metal - based manufacturing solutions

for Commercial, Defense and Aerospace applications

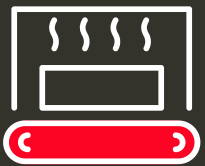

Excellence  
and expertise  
based on  
seven  
decades of  
experience

“One Stop Shop”  
for cutting edge  
designing,  
planning and  
production

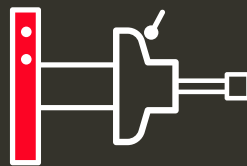

Engineering the cutting edge of metal  
technologies

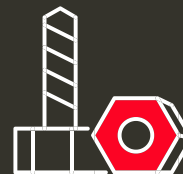

Hot Forming

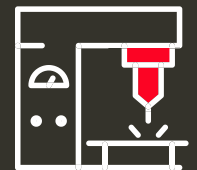

Cold Forming

Spinning

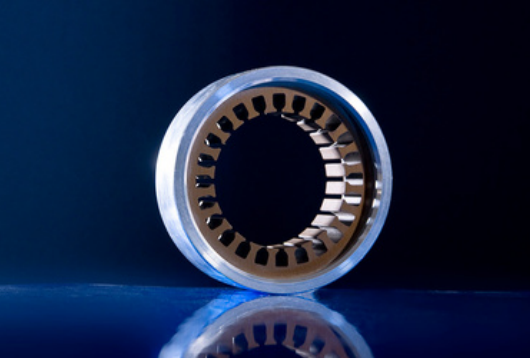

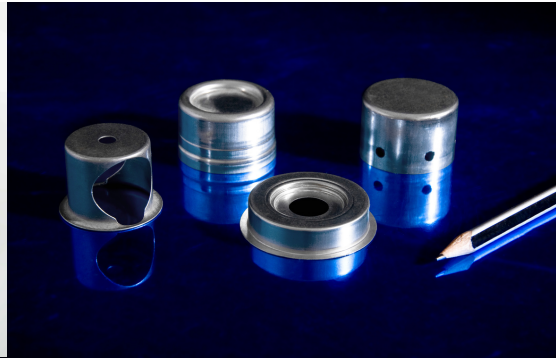

Sub Assemblies

Machining

# Trusted by industry leading partners:

## Our Offering:

- Provide a wide range of advanced technologies
- Fast time to manufacture a diverse range of products
- Operational agility and minimal barriers
- Supporting “Build to spec” processes or “build to print” with added value of efficiency and cost reduction
- Compatibility to Aviation quality certifications and standards (ISO 9001:2008 and AS 9100 Rev. D)
- Environmentally friendly production process
